## EXPERIENCE

### WILLIS TOWERS WATSON | SOFTWARE DEVELOPER INTERN (C#/.NET)

May 2017 – Dec 2017 (8 Months) | Bonifacio Global City, PH

- Worked on 3 Projects: a workforce management system (desktop and web app) used by department and 2 financial web applications: one used globally by Willis Towers Watson and the other, used by local Philippine banks.
- Developed, performed unit tests, pushed into production several UI enhancements, and debugged the back end for rendering issues on the report modules for a financial web application.
- Rebuilt, debugged, and released into production an optimized Workforce Management System.
- Added several reporting tools and extended the logging parameters to accommodate users of different shifts for the workforce management system.
- Worked with the Software Development Support Group and the Retirement Systems Group in Agile (Scrum) development.

## PROJECTS

### RSY FITNESS GYM | DEVELOPMENT

Website - C#, ASP.NET, Microsoft Azure

In a group of five, worked in the development of a website for RSY Fitness Gym where users can register or login accounts, view classes, and buy merchandise.

### CHATTRGLASS | DEVELOPMENT

Website - JavaScript, Express.js, Node.js, MongoDB

A platform that enforces better collaboration between teams by allowing users to connect, create, and participate in chat groups in realtime and a focused newsfeed.

### JOBSETH | DEVELOPMENT

Blockchain Web App - JavaScript, Solidity, web3.js

A simple platform for posting job ads utilising the ethereum stack.

### MEDQA | RESEARCH, DEVELOPMENT

Natural Language Processing - Java, PHP, SQL, Elasticsearch, CoreNLP

Led a group of three to research and develop a console-based and web-based applications that reads and answers a user's question about diabetes using Natural Language Processing.

### EVALUATING MACHINE LEARNING ALGORITHMS FOR EMPLOYEE ATTRITION FORECASTING | RESEARCH, DEVELOPMENT

Undergrad Thesis - Python, Tensorflow, Clementine

Led a group of five to research, develop, and evaluate the efficiency of an intelligent human resources analytic system for analysing Employee Turnovers using neural networks.

### SM AUGMENTED REALITY APPLICATION | PROJECT MANAGEMENT

Android Application - Java, PHP, C#, Vuforia SDK

Tasked by the SM Hotels & Conventions Center and led a group to develop a mobile application utilising augmented reality to provide an interactive tour for its branches.

## EXTRACURRICULAR

### • APC Junior Information Systems Security Association

Jun 2016 - Dec 2016 | Finance - Asst. Director

### • Asia-Pacific Economic Cooperation (APEC)

Nov 2015 | Student Volunteer
